# Color Me Hawaii!

**Inside!**

Have fun exploring  
volcanoes, surfing, dolphins,  
humpback whales and  
more

An educational coloring and activity book by Samantha Clark

# Welcome to Color Me Hawai'i

Hi kids.  
My name is  
SIR NEWTON!

I travel around the world  
to discover wonderful  
places then share them  
with children like you.

In this book, I'll tell you  
about things I found in the HAWAIIAN ISLANDS.

Words in parentheses are Hawaiian, and you can  
test your memory for them at the end of the book.

Inside are lots of ACTIVITIES and pictures you  
can COLOR. So get out your crayons and turn  
the page.

# All About Hawai'i

The Hawaiian Islands are KAHŌ'OLĀWE, KAŪA'I, LANĀ'I, MAUI, MOLOKAI, NĪHAU, OAHU and the Big Island of HAWAII.

Native Hawaiians speak English now, but many people also speak the Hawaiian language. For example, say “ALOHA” instead of “hello,” and say “MAHAALO” for “thank you.”

Some Hawaiian words are spelled with an OKINA, a backward apostrophe (‘) that shows there should be a slight pause between those letters.

English has 52 letters, but the Hawaiian language has only 12:  
A, E, I, O, U, H, K, L, M, N, P and W.

Learn more about the history of the Hawaiian Islands and their flag in the full “Sir Newton’s Color Me Hawai’i.”

# Under the Sea

The Hawaiian Islands are surrounded by the Pacific Ocean, which is full of fish and other creatures.

## Monk Seals

The Hawaiian Islands are the only place in the world that the HAWAIIAN MONK SEAL can be found. Its Hawaiian name is “ilio holo kai,” which means “dog that runs in the sea.”

Monk seals can dive as deep as 1,500 feet. That’s more than the height of the Empire State Building!

They grow to about seven feet, which is longer than most adult people are tall.

Learn about sharks, turtles and humpback whales in the full “Sir Newton’s Color Me Hawai’i.”

## NEWT FACT:

Monk seals grow  
up to seven feet.

# Volcanoes

The Hawaiian islands are actually the tops of giant VOLCANOES.

Volcanoes are like mountains, but inside a volcano is a hole that goes all the way below the Earth's surface.

Under the Earth's crust, the temperature is so hot, it can melt rock! The melted rock forms thick "MAGMA," and when gasses develop under the magma, it's pushed up and explodes out of the top of the volcano, forming LAVA.

Learn about volcanoes, surfing, hula, Hawaiian birds and agriculture in the full "Sir Newton's Color Me Hawai'i."

# Lava maze

Find the lava  
path that ends  
at the bottom  
of the volcano.

## A Sir Newton's Color Me Book

In thanks to God for giving us the Hawaiian Islands and the world.

Thanks also to my parents for their help and support and to my husband,  
who helped me believe I can do anything.

Thanks to the Smith and Fezzie families for being my guinea pigs.

And a special thanks to Charles de Freitas for making my drawings look professional.

This book has been published to give children in the Hawaiian Islands something fun that they  
can call their own and to help them share their beautiful home with others around the world.

10% of the sales of Sir Newton's Color Me Hawai'i will be donated to  
Rotary International District 5000 — Hawai'i programs benefiting children in the Hawaiian Islands.

**Hey kids!**

Now that you've learned about the Hawaiian Islands, let me tell you about me, Sir Newton.

I'm a "rescue dog." When I was a puppy, I got lost. I was living on the streets and got sick. A policeman found me and took me to the pound, but no one wanted to adopt a sick dog.

Luckily, a volunteer with a dog rescue organization picked me up. Those kind people took care of me until I was well again. Then they introduced me to a great family. I love my new home.

If you see a dog living on the streets, be kind to him. Tell volunteers at a rescue organization, so they can help the dog find a new family.

And if you would like to adopt a dog, contact your local dog pound or rescue organization.

\$5.95

**I'm Sir Newton!**  
LET'S GO ON A  
**COLORFUL HAWAIIAN**  
**ADVENTURE**

Join me inside, and  
I'll tell you about the  
wonderful history of  
the Hawaiian Islands

Did you know the  
**Hawaiian Islands**  
were made from  
**Volcanoes** — and  
some are still active!

...and did you know the  
**Hawaiian Monk Seal**  
has been around for  
millions of years?
